BIOMÉRIEUX

DISCOVER A NEW FRONTIER IN ENVIRONMENTAL MONITORING

Introducing 3P® ENTERPRISE for efficient environmental monitoring (EM)

The first and only turnkey EM ecosystem combines culture media (3P® SMART PLATES), software (3P® CONNECT) and hardware (3P® STATION). Experience the confidence and peace of mind to remain in control of EM workflows in a compliant, cost-effective manner.

NOW IS THE TIME TO TALK ABOUT:

- How your culture media facilitates traceability?
- What data integrity means to your organization?
- How automation and digitalization impact EM?

VISIT BIOMÉRIEUX AT BOOTH #302 TO LEARN MORE

3P® ENTERPRISE YOUR TURNKEY EM ECOSYSTEM

PDA THANKS OUR DIAMOND SPONSOR

BIOMÉRIEUX

bioMérieux, Inc. provides solutions for reducing blood culture contamination, detecting infectious diseases early, and tracking healthcare-associated infections.

This Buyer's Guide is designed to help you maximize your experience at the *2022 PDA Pharmaceutical Microbiology Conference*. We are excited to finally be welcoming you back to this in person meeting! Use the **Schedule-at-a-Glance** to build your own Conference itinerary. The **Exhibitor Abstracts** and listing of **Exhibitors by Categories** of product and service offerings will make it easier for you to navigate the Exhibit Hall and to select those Exhibitors with which you want to connect.

The *2022 PDA Pharmaceutical Microbiology Conference* will deliver the high-quality content, premier attendee experience, and networking opportunities you have come to expect. Take advantage of the return to face-to-face interaction with thought leaders, peers, vendors, and suppliers at this premier event.

SCHEDULE-AT-A-GLANCE

All times listed in EDT (UTC -4)

MONDAY, 10 OCTOBER

-  07:00 – 17:30
Registration Open

-  07:00 – 08:30
Continental Breakfast

-  08:15 – 10:00
P1: Antibiotics: A Double-Edged Sword!

-  10:00-10:45
Refreshment Break

-  10:45 – 12:15
Concurrent Sessions

-  12:15 – 13:45
**Grand Opening of the Exhibit Hall,
Networking Lunch, Exhibitor Tech Talks, and
Poster Presentations**

-  13:45 – 15:15
Concurrent Sessions

-  15:15 – 16:00
**Networking Break, Passport Raffle, and
Poster Presentations in the Exhibit Hall**

-  16:00 – 17:30
Concurrent Sessions

-  17:30 – 18:30
**Networking Reception and Poster
Presentations in the Exhibit Hall**

TUESDAY, 11 OCTOBER

-  07:00 – 17:30
Registration Open

-  07:00 – 08:30
Continental Breakfast

-  07:15 – 08:15
**Breakfast Session: Current Struggles with a
Panel of Experts**

-  08:30 – 10:00
**P2: Changing Dynamics in Science:
Implementation by Pharmaceutical Industry
and Future Adaptation**

-  10:00 – 10:45
**Networking Break and Poster Presentations
in the Exhibit Hall**

-  10:45 – 12:15
Concurrent Sessions

-  12:15 – 13:45
**Networking Lunch, Exhibitor Tech Talks, and
Poster Presentations in the Exhibit Hall**

-  13:45 – 15:15
Concurrent Sessions

-  15:15 – 16:00
**Networking Break, Passport Raffle, and
Poster Presentations in the Exhibit Hall**

-  16:00
Closing of the Exhibit Hall- See you in 2023!

-  16:00 – 17:30
Concurrent Sessions

WEDNESDAY, 12 OCTOBER

-  07:00 – 12:00
Registration Open

-  07:00 – 08:45
Continental Breakfast

-  07:15 – 08:30
**Breakfast Session: PDA Microbiological
Control-Related Publications**

-  08:45 – 10:00
P3: Innovations to Avoid an Invasive Biopsy

-  10:00 – 10:30
Refreshment Break

-  10:30 – 12:15
P4: Ask the Regulators Panel Discussion

MEDIA SPONSORS

Being First Means Doing Something No One Else Has Ever Done Before... We Do That A Lot.

We have a long history of advancing Endotoxin and Glucan testing technologies that make a difference.

A History Of Firsts!

1st To Introduce An Animal Free, Recombinant LAL Reagent

1st Large Scale IVF Program To Introduce Horseshoe Crabs Into The Wild

1st To Establish BET Contract Testing Services

1st BET Company Licensed By FDA

Advance your laboratory's Endotoxin and Glucan detection capabilities into 1st place today.

Associates of Cape Cod, Inc.
Your Endotoxin & Glucan Experts
www.acciusa.com • 888.395.2221
Associates of Cape Cod, Inc. - a Seikagaku Group Company

MKT#21-076

PDA THANKS OUR PLATINUM SPONSOR

Specialists in Endotoxin and Glucan Detection

Associates of Cape Cod, Inc. (ACC), a global biopharmaceutical company specializing in endotoxin and glucan detection, was the first company licensed by the FDA to manufacture LAL for use as a quality control BET test. ACC introduced another first when we launched the first BET Recombinant Cascade Reagent, PyroSmart NextGen®.

TECH TALK INFORMATION

Tech Talk presentations will be held in the Exhibit Hall during lunch. Here, our vendors and suppliers will be making technical presentations on a variety of topics to help you tackle your technical challenges and improve your operations.

MONDAY, 10 OCTOBER

LUNCH BREAK

12:40 – 12:50

VITEK® MS PRIME: Prime Innovation In Maldi-TOF Mass Spectrometry For Improved Microbial Identification Efficiency And Accuracy

Julie Yang, Program Director ID/BTA, Health & Personal Care Business

bioMerieux, Inc.

Laboratories are key contributors to rapid and confident microbial identification (ID) ensuring product quality and safety while balancing challenges such as controlling costs, empowering their staff, and reducing time to results. With the advancement of technologies in ID, mass spectrometry has helped address those challenges efficiently.

VITEK® MS PRIME is a new bench top matrix-assisted laser desorption/ionization time of flight mass spectrometry (MALDI-TOF MS) microbial identification system. We will present the new features of the instrument and how they enable laboratories to improve their workflow, productivity, and system uptime for everyday routine use. While every facility will be different, the vast majority of pharmaceutical facilities routinely encounter the same environmental species. An earlier study presented in 2019 showed VMS included 94.5% of species routinely isolated from pharma environment. Here, the biological performance of VITEK MS PRIME over a broad range of species will be presented. A broad performance study was conducted on 479 species covering clinical and industrial microflora. A global correct identification rate of 98.4% (1435/1458) was obtained. These data support that the new VITEK MS PRIME system provides increased efficiency and productivity, and reliable identification of routine industrial isolates.

12:55 – 13:05

News in BET: How Do Traditional LAL Reagents Compare to Recombinant Reagents

Veronika Wills, Associate Manager, Technical Services

Associates of Cape Cod, Inc.

Recombinant technology arrived and is here to stay. This technical talk brings to the forefront the most up to date information on the emerging recombinant technologies and how they compare to the traditional LAL reagents for measuring bacterial endotoxins. ACC is proud to be the frontrunner of a 100% horseshoe crab blood free, fully functioning and reliable recombinant cascade reagent for BET; PyroSmart NextGen®.

Utilizing the same LAL cascade as traditional LAL reagents, while eliminating the potential for 1,3-β-D-glucans cross reactivity, PyroSmart NextGen® delivers all the quality and consistency of results you have come to expect from ACC LAL reagents and will be documented on continuously generated comparability studies.

13:10 – 13:20

Rapid QC Testing & Smart Manufacturing with Charles River

Titiksha (Ti) Patel, Global Key Account Manager for Microbial Solution

Charles River Laboratories

Learn more about Charles River's new microbial solutions products and how they can help deliver life-saving vaccines and therapies faster.

TECH TALK INFORMATION

Tech Talk presentations will be held in the Exhibit Hall during lunch. Here, our vendors and suppliers will be making technical presentations on a variety of topics to help you tackle your technical challenges and improve your operations.

TUESDAY, 11 OCTOBER

LUNCH BREAK

12:25 – 12:35

MAS-100 Atmos®: The Next Generation of Compressed Gas Sampling

Tim Cser, Senior Technology Specialist
MilliporeSigma

Come learn how the MAS Atmos can speed up and secure your compressed gas sampling. Fully compliant to 21 CFR Part 11, the MAS Atmos records all sample parameters while delivering the fastest sampling speed in the industry. See how this new technology can improve your compressed gas sampling.

12:40 – 12:50

Comparing USP and Alternate Tests in Endotoxin Detection

Allen Burgenson, Global Matter Expert, Testing Solutions
Lonza Walkersville

This presentation will compare both USP and Alternate Methods in detection of endotoxin derived from autochthonous microorganisms from a purified water system in parenteral products.

12:55 – 13:05

Faster, Better, Smarter Monitoring with Growth Direct

Danielle DeCesaro, Sr. Associate Product Manager
Rapid Micro Biosystems, Inc.

Have you ever wondered how to achieve rapid results for your microbial monitoring programs, with a 50% reduction in time-to-result and improving patient safety? The audience will have an overview of technology that powers the Growth Direct System and how the consumables are compatible with the plates already utilized in their existing EM/BB applications. After the sampling process is complete, plates are loaded onto the Growth Direct System and the on-board automation takes it from there! You provide the sampling; we've got everything else handled.

METTLER TOLEDO PROCESS ANALYTICS

Booth 202

900 Middlesex Tpke., Building 8, Billerica, MA 01821
+1 (781) 301-8822 | mt.com/us/en/home.html

METTLER TOLEDO Process Analytics is a leader in process and pure water monitoring instrumentation used in pharmaceutical and biotech applications, offering systems for the measurement parameters of pH/ORP, dissolved oxygen, TOC, dissolved CO₂, and conductivity. METTLER TOLEDO's innovation continues with the introduction of the 7000RMS analyzer for on-line microbial monitoring.

MICROBIOLOGICS, INC.

Booth 109

200 Cooper Ave. N, Saint Cloud, MN 56303
+1 (320) 227-6606 | microbiologics.com | info@microbiologics.com

Microbiologics is a leading provider of test-ready microbial reference materials for quality control testing in clinical and industrial laboratories. Their catalog includes quantitated lyophilized control strains for Growth Promotion, Antimicrobial Effectiveness, Disinfectant Qualification and more. They also offer BSL-2 and BSL-3 contract research organization (CRO) services including custom biomaterial production services, assay development and anti-infective drug testing.
