
2022 PDA Universe of Pre-Filled Syringes and Injection Devices Conference Preview

The return to an in-person format provides valuable networking opportunities

The Universe of Pre-Filled Syringes and Injection Devices Conference is making its long-awaited return to an in-person format! For anyone involved in the application device technology space, Palm Springs, CA, is the place to be, on 18-19 October, to stay a step ahead of the future of pharmaceutical devices.

Built around the theme, 'The New Normal in Injectable Drug Delivery', this conference will explore the latest advances and regulatory trends in the industry. This year's plenary sessions will take you on a journey, starting with an overview of the status of the field, through a look at the importance of partnership and cross-industry collaboration, a patient perspective, and, finally, an in-depth examination of what the future holds.

Delve into important hot topics presented under three concurrent tracks. Industry and regulatory experts will share their knowledge and experience related to new developments, regulatory considerations, challenges, and industry trends in sessions covering:

- Autoinjectors
- Clinical to Commercial
- Deep Cold Storage
- Digital Health
- Human Factors
- Large Volume Injectors
- Manufacturing
- New Technologies

- Regulatory Affairs and Standards
- Sustainability

Prepare to be up early to benefit from the expert insights shared during the breakfast sessions on Day Two. Through case study examples and presentations, you will get the latest on silicone-free syringes, flexible manufacturing platforms, and improving track and trace with RFID technology.

With the return to an in-person format come multiple opportunities to connect face-to-face with speakers and attendees alike, including during refreshment breaks, networking lunches, and the always fun and exciting evening reception.

Don't miss the Exhibit Hall, which will be home to poster presentations and numerous vendors and suppliers showcasing the latest in product, service, and technology solutions.

Join us as we return to an in-person event, and be the first to know about the innovative advances that are driving the industry forward.

Take advantage of the biggest savings when you register by 21 August! Visit: www.pda.org/2022ups to learn more.

Looking for more on pre-filled syringes? On 20 October, immediately following the conference, PDA will be hosting four

different training courses from which to choose. Topics include:

- Assessing Packaging and Processing Extractables/Leachables
- Drug Delivery Device and Combination Product Risk Management and Safety Assurance Cases
- Characteristics of Pharmaceutical Elastomers and Aluminum Seals in Parenteral Packaging Systems
- Understanding Container Options and User Needs for Syringes, Cartridge Containers, Wearables, and Drug Delivery Systems

Gain the skills to advance your career. Learn more and sign up today. Visit: www.pda.org/upstcs

Annex 1 Training

Concerned about the implementation challenges that the forthcoming Annex 1 revision will bring? Attend the 2022 PDA Annex 1 Workshop in Palm Springs, 20-21 October, to take away practical solutions to help your company comply with the new requirements. This two day workshop features more than 15 informative presentations covering the essential aspects of the revision and small, implementation-focused group discussions after key sessions.
