Aseptic Technologies, member of SKAN Group, improves the quality of aseptic operations by providing innovative, user-oriented state-of-the-art equipment, devices, and services to the pharma industry.

Aseptic Processing / Facilities & Engineering / Fill/Finish / Single Use Systems / Vials

BioCentriq, Inc.

211 Warren St. 4th Floor, Newark, NJ 07103

+1 (973) 381-6242 | biocentriq.com

BioCentriq is a cell and gene therapy CDMO with state-of-the-art GMP facilities for clinical drug product manufacturing. BioCentriq's signature hybrid-team model allows for client teams to work alongside its experienced subject matter experts at all of its facilities.

Cell Therapy / Contract Manufacturing / Fill/Finish / Product Development Services / Technology Transfer

bioMérieux, Inc.

401 N. Michigan Ave., Chicago, IL 60611

+1 (800) 682-2666 | biomerieux-usa.com

bioMérieux, Inc. provides solutions for reducing blood culture contamination, detecting infectious diseases early, and tracking healthcare-associated infections.

Endotoxins / Environmental Monitoring / Microbiology/Environmental Monitoring / Mycoplasmas / QC/QA / Rapid Microbiological Methods

Contec, Inc.

525 Locust Grove, Spartanburg, SC 29303

+1 (864) 503-8333 | cleanroom.contecinc.com |

info@contecinc.com

Contec, Inc., an ISO 9001:2008 registered company, is dedicated to producing contamination control products for critical cleaning environments worldwide. Our product line for cleanrooms includes knitted, woven, and nonwoven wipes, pre-saturated wipes, sterile and non-sterile wipes, mopping systems, wall washing systems, disinfectants, sponges, and swabs. Contec is committed to quality and exceeding our customer requirements and expectations.

Clean Room Equipment and Supplies

Innerspace GmbH

Helga-Krismer-Platz 1, Innsbruck, Tirol 6020, Austria
+43 664 9103882 | innerspace.eu

Innerspace helps leading pharmaceutical companies to train and assess cleanroom personnel more effectively, reduce errors, minimize risks, save costs, and ensure quality by uniting expertise. Our solution provides a risk-based training methodology that draws on learning psychology and uses state-of-the-art virtual reality technology. Our training modules are aligned with the latest revision of Annex 1 and ensure compliance.

*Consulting Services | Environmental Monitoring |
Pharmaceutical Training*

LumaCyte, Inc.

1145 River Rd. Suite 16, Charlottesville, VA 22901
+1 (434) 326-1476 | lumacyte.com

LumaCyte's advanced real-time bioanalytics platform, Radiance®, is a label-free, single cell approach for quantitative characterization of innate cellular responses, without the need for antibody or genetic labeling. This revolutionary technology utilizes Laser Force Cytology™ (LFC) to measure subtle phenotypic changes based purely on the intrinsic biophysical and biochemical properties of cells in response to their environment.
