Q1 2023

Editorials

Chair's Message: A New Horizon for Our PDA Members around the World	2
President's Message: A Bittersweet Farewell	2
Learning from the Past in A Patient-Centric World	4

Features

Putting AI to the Test with Continued Process Verification	5
Joint Regulatory Conference: Bringing Better Innovation and Communication Moving Forward	7
Robotics and Automation in Pharmaceutical Production	9
The Urgency for Robotization and Automation	11

DEPARTMENTS

Aseptic Processing

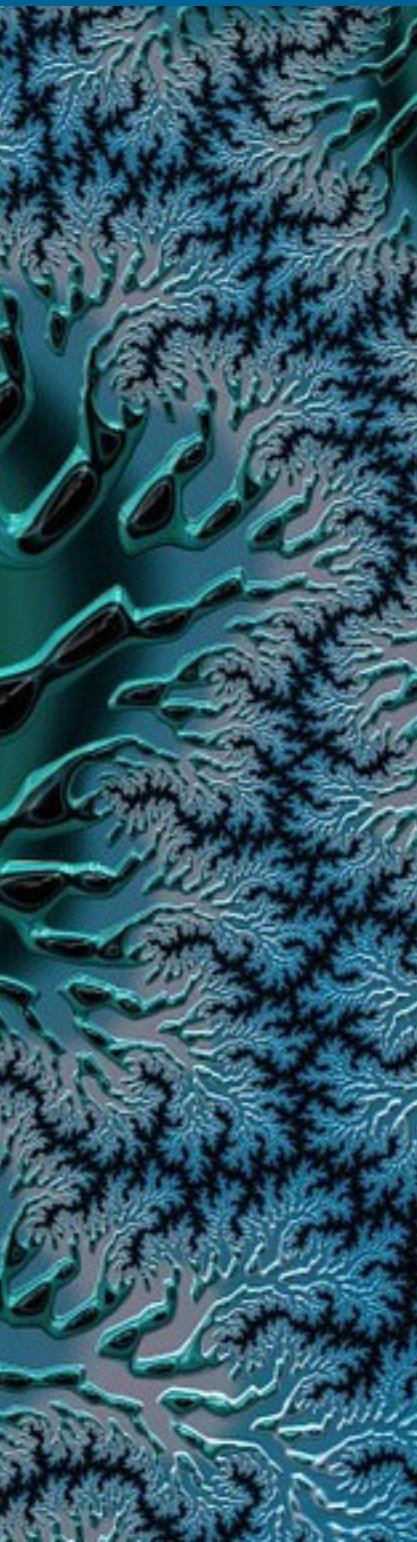

The Complex Process for Sterile Filling and Points to Consider	13
Key Takeaways from the 2022 PDA Annex 1 Workshop in Dublin	15

PDA Letter

Volume LIX • Issue 2

www.pda.org/pdaletter

Q2 2023

Features

Understanding Disinfectant Efficacy for Off-Label Microorganisms	2
Achieving Top Management's Interest Through the Use of KPIs and QPIs	6
Cybersecurity and Its Growing Impact on Medical Devices	8
From Risk Assessment to Employee Training	11

DEPARTMENTS

Manufacturing Science

Are Your Drug or Device Endotoxins Up to Specs?	16
Closing the Distance on the Plastics Supply Chain	18

Quality & Regulatory

Industry Remains Divided on Quality Management Maturity Proposal	20
--	----

People

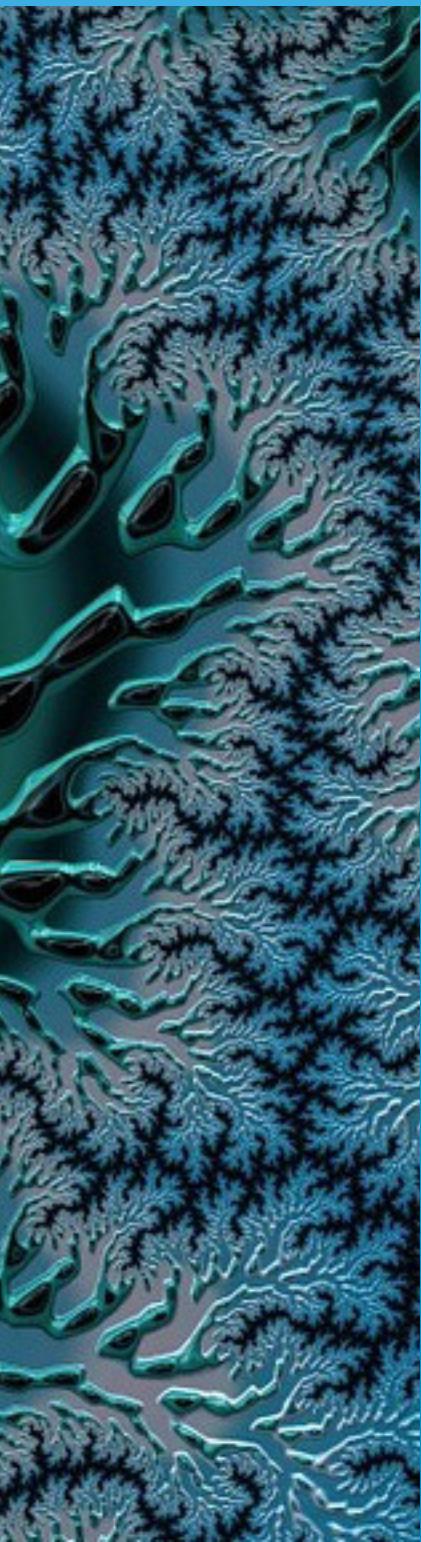

Impactful Pharma Career Day at PSB City Campus	21
--	----

PDA Letter

Volume LIX • Issue 3

Q3 2023

Features

In-process Microbial Control During Aseptic Processing (High-Risk)	2
In-process Microbial Control During Aseptic Processing – Medium Risk	7
Per- and Polyfluoroalkyl Substances Ban Starting 2027	12
Seven Key Takeaways from PDA's Good Aseptic Manufacturing Conference	14
Time to Start Using Polypropylene Vials in the Industry	19

DEPARTMENTS

Aseptic Processing & Sterilization

The Difficult Task of Solving Contamination Puzzles	23
In-Situ Verification of Disinfectant Rotation for Contamination Control	25

Biopharmaceutical & Biomanufacturing

The 2023 PDA BioManufacturing Conference Lands in Seville, Spain	26
Macro Impacts from the Micro-Universe	29
Artificial Intelligence and Machine Learning in the Early Stage of a Product Life Cycle	30

Quality & Regulatory

Quality Culture Post-Pandemic	33
-------------------------------	----

People

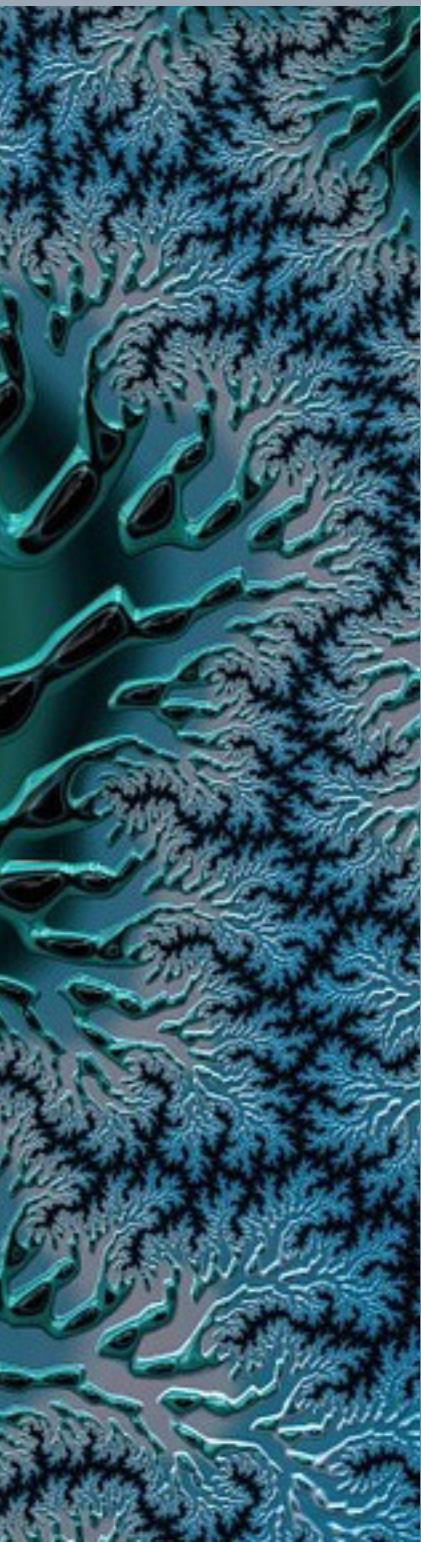

An Uncommon Battle	37
Microbiologists and Training	40
Testing of the future	41
Welcome New RAQAB Members	43

PDA Letter

Volume LIX • Issue 4

Q4 2023

Features

Balancing Act	2
Reducing Human Error for Manual Visual Inspection	5
Building an Effective Data Integrity Program	
Using Risk Management	9
Opinion: Revisit Regulatory Expectations for Micro ID in Grade A Environments for Non-growth-based Methods?	15
Effective Strategies for Investigating Media Fill Failures in Sterile Manufacturing	19
Simplicity Wins with Combo Products	23

DEPARTMENTS

Aseptic Processing & Sterilization

The Importance of Visual Inspection in Injection of Parenteral Drug Products	26
Aligning Global Regulatory Guidance Documents for Container Closure Integrity	32
PDA Microbiology Conference 2022 Presentation	34
Seven Key Takeaways from PDA's Viral Safety for ATMPs Workshop and Virus Conference Events	37

Biopharmaceutical & Biomanufacturing

Continuing the Conversation for Better ATMP Development	42
Challenges of Analytical Method Validation for ATMPs	45

People

Change for Good, Be a Disrupter!	48
Congratulations to the Winners of the 2023 Drug Delivery Innovation Awards!	48
