

# Training Course Agenda

PDA 539 Technical Report No. 77: The Manufacture of Sterile Pharmaceutical Products Using Blow-Fill-Seal Technology

## DAY 1

**8:30**      **Welcome and Introductions**

9:00      Blow/Fill/Seal Technology, Process Description

**10:30**      **Break**

10:45      BFS applications and considerations  
Benefits of BFS, Technology Comparison

**12:00**      **Lunch**

13:00      Operational and Qualification Considerations – Process Validation  
Preparation of Critical Areas

**14:30**      **Break**

14:45      Environmental Monitoring  
Quality Risk Assessment

**16:00**      **End of Training Course**
