

Health and Safety

The safety and wellbeing of our participants is a top priority for PDA; therefore, we will be implementing the following guidelines for this in-person event:

VACCINATION REQUIREMENT

Participants, including attendees, exhibitors, trainers, students, staff, guests, contractors, and vendors, must provide proof of vaccination after registering for an in-person event. Accommodation may be offered on a case-by-case basis for any in-person participant who is unable to be vaccinated due to disability or medical condition, or in connection with a sincerely held religious belief or practice, unless otherwise provided under applicable state or local law. Accommodation requests must be made no later than 18 March 2022.

For those registered for the in-person meeting, you will receive a link to upload and verify your vaccine status in early 2022.

Participants that are unable to meet the vaccine requirement or fail to get a PDA-approved accommodation request will not be granted admittance to the event.

MASK REQUIREMENT

If mandated by national, state, or local guidelines in effect during the dates of any meeting, PDA will require masks to be worn indoors regardless of vaccination status.

ADDITIONAL REQUIREMENTS

PDA will be making decisions on additional precautionary measures closer to the date of the event and in accordance with the latest CDC guidance, local requirements, and hotel policies.

Updated January 2022.
